

Beechwood South Extension

Project Description:

The project consists of extending Beechwood Road from the existing sharp bend just east of Cornstalk Road mostly south along a proposed alignment that closely follows Cornstalk Road to the existing SR 32 intersection with Mt. Carmel Road in Union Township.

The project is approximately 1250 feet in length and will provide a geometrically sound intersection with SR 32 and eliminate the need for signalized improvements at the existing Beechwood/Mt. Carmel intersection. Also, existing Mt. Carmel Road will be cul-de-sac'd approximately 400 feet west from its existing intersection with SR 32.

Project Cost:

Contractor: Sunesis Construction Company

Cost: \$595,966.25

Source of Funds:

Clermont County TID: 50%

Hamilton County TID: 50%

Construction Schedule:

Begin: July, 2008

Complete: September, 2008
